Learn More About Escrow

Safeguarding both buyer and seller.

What does "escrow" mean?

An escrow is a financial and legal agreement designed to protect Buyers and Sellers in a transaction. For a fee, an independent third party holds payment until everyone fulfills their responsibilities in the transaction.

With an escrow payment, the Seller will only receive the funds when the Buyer has received and accepted the transfer. However, the Seller knows they will receive payment because Escrow Myanmar is holding the funds on their behalf.

How does Escrow Myanmar works?

Escrow Myanmar reduces the risk of fraud by acting as a trusted third-party that collects, holds, and only disburses Myanmar Kyat when both the Buyer and Seller are satisfied.

Either the Buyer or Seller initiates a transaction. After registering at Escrow.com, all parties agree to the terms of the transaction. Buyer pays Escrow Myanmar. The Buyer submits a payment by approved payment method to our secure Account, Escrow Myanmar verifies the payment, then the Seller is notified that funds have been secured "In Escrow". Seller transfer to Buyer. Escrow Myanmar verifies that the Buyer receives the transfer. Buyer send confirmation. If not approved, the Buyer will raise a dispute and enter the dispute resolution process. Escrow Myanmar pays the Seller. If the merchandise is accepted, Escrow Myanmar releases funds to the Seller from the Escrow Account.

Our Purpose

The purpose of Escrow Myanmar is to provide a secure and seamless platform for individuals to buy and sell Myanmar Kyat, while protecting them from scams and excessive fees. We aim to facilitate international money transfers for individuals who want to send money back to their families and friends in Myanmar without incurring losses. Our 1% fees for seller and 0% fees for those buying Myanmar Kyat are designed to support people in foreign countries who wish to send money back home. By prioritizing safety, transparency, and affordability, we seek to empower our customers and contribute to the financial well-being of the people of Myanmar.

About us

We are a small team with a big heart, dedicated to helping our customers. Our journey began as exchange agents, facilitating transactions between buyers and sellers. Without technology, it was challenging to individually respond to customers and manage multiple platforms like Facebook Messenger or Viber while reviewing numerous bank transactions for verification. Unfortunately, this limited our ability to assist all customers, leaving some unattended. We genuinely felt sorry for not being able to help everyone, especially those transferring small amounts. Due to the time-consuming process, agents' fees were high. Additionally, the exchange rates were not transparent, and there were many scammers out there trying to take hard-earned money.

Therefore, we established Escrow Myanmar to streamline the process and implement seamless technology for submission, verification, and approval. Our aim is to protect people from scammers, reduce agent fees, and make the process transparent. Our 1% fees are lower than the 2-2.5% minimum charged by most agents and aim to protect people from potential scams while helping those back home. We genuinely welcome feedback for improvement and are committed to making a positive difference in our customers' lives. Your hard-earned money is protected with us.

Our core values have guided every decision

Integrity

At Escrow Myanmar, we say what we mean and do what we say. We build reliable partnerships.

Team Work

Escrow Myanmar success belongs to our people. We collaborate to solve problems and deliver improved outcomes. Everyone respects one another and contributes to the team, regardless of position or background.

Innovate

At Escrow Myanmar, we value continuous improvement and innovation to find solutions to difficult challenges and to delivery exceptional quality.

Frequently Asked Question

Do you keep our verification photos? Privacy Issue

Due to costly nature to main server, we don't hold photos verification more than one month.

What if I want to transfer more than \$2000?

For safety purpose, we are only allowing Zelle. If you want to transfer more than \$2000, you must create multiple transition.

NOTE from Owner

- I want this website to be accessible on iPhones and android phones.
- I want to try to create this website out of US server if possible.
- I want a admin page that allows me to assign these to staffs for verification as well as making the page easy for them to verify quickly/effectively.
- I will translate these to Burmese language (I will have some to help with translation)
- This COLOR is Drop Down or User Input
- This COLOR is Owner notes
